

# CRITICAL TECH MEETS WHITE GLOVE CARE

In high-tech environments, there's no time for errors. Fragmented vendors and lengthy integrations cost more than just time and missed deadlines—they threaten overall performance and credibility.

## That's where we come in.

With our hands-on, on-site expertise, you receive streamlined installation, seamless system integration, and real-time accountability from a single trusted partner.

## Managed Deliveries for Data Centers

- **White Glove Transport:** Air-ride, flat-floor trailers with direct load-to-ride service, eliminating cross-docking and unexpected surprises.
- **Precision Placement:** Inside delivery to specific rooms or floors with liftgate access and multi-person crews to ensure safe handling of sensitive racks and equipment.
- **Asset Protection:** Blanket wrapping, secure strapping, and careful unwrapping at the final site.
- **Deployment-Ready:** Pre-calls, site surveys, and custom checklists aligned with your data center schedules and installation windows.
- **Clean and Controlled:** Full debris removal post-deployment, leaving mission-critical environments spotless and operational.
- **Global, Door-to-Door Reach:** Seamless global support for relocations and new builds.
- **Real-Time Visibility:** GPS tracking and serialized inventory control for total transparency.
- **Contractor Coordination:** Time-specific deliveries aligned with on-site techs, installers, and security protocols.
